

Water pump-out installation in Miralcamp

Location:

Miralcamp, Catalonia

Relevance:

Pontoon and 20m gangway

Client / Operator:

Private

Timeline:

2015

Quality Control:

BMI ISO QA Manuel, CMFerrer

Project Delivery:

Design/ Build

Construcciones Metálicas Ferrer, has designed, built and installed a floating concrete pontoon Unifloat® 6x3m and a gangway of 20 meters made of hot dip galvanized steel for a water pump-out installation in Miralcamp (Lleida).

The technicians have to cross the 20 meters gangway to connect the water pump-out. This is a small project, where you can see the versatility of C.M.Ferrer, because join their experience in metalwork for more than 50 years with Bellingham Marine know-how in floating structures.
